2.3.3 Teachers use ICT-enabled tools for effective teaching and learning process, including online e-Resources

Preamble

"PIMSDU is committed to delivering progressive and effective education is fortified through the integration of **Information and Communication Technology (ICT)** in the teaching-learning process. This section encapsulates our dedication to leveraging ICT-enabled tools for a more dynamic and interactive educational experience, including the utilization of online **e-resources**.

Recognizing the evolving landscape of education and the significance of technological advancements, our institution emphasizes the incorporation of ICT-enabled tools in the teaching-learning paradigm. Through the adept use of **digital resources**, **interactive platforms**, and **innovative applications**, our faculty members employ a range of tools to enhance the educational journey of our students.

The integration of ICT-enabled tools facilitates a more engaging, interactive, and accessible learning environment. It allows for the delivery of diverse and enriching content, promoting comprehensive understanding and application of medical concepts. The availability of **online e-resources** further complements traditional classroom instruction, providing students with an extensive repository of educational materials, scholarly articles, digital libraries, and multimedia resources accessible at their convenience.

This KI underlines our dedication to providing a contemporary and adaptive educational experience that caters to the diverse learning styles of our students while equipping them with the necessary resources to excel in their health Sciences education and professional pursuits."
